Section IV First Aid
Emergency and First Aid Treatment

EYE CONTACT:
For direct contact, flush the eyes with clean water for at least fifteen (15) minutes. Seek medical attention. For contact with vapors or mists, move victim to fresh air. If irritation or redness develops, seek medical attention.

SKIN CONTACT:
Remove all contaminated clothing. Cleanse the affected area thoroughly by washing with mild soap and water. If irritation or redness develops, seek medical attention.

INHALATION:
If symptoms of exposure develop (see Section IV), move victim away from source of exposure and into fresh air. If symptoms persist, seek immediate medical attention. If victim is not breathing, artificial respiration should be administered by qualified personnel. Seek immediate medical attention.

INGESTION:
If victim is drowsy or unconscious, place on left side with head down. If unconscious, do not give anything by mouth. If conscious and alert, induce vomiting with Syrup of Ipecac under direction of physician or Poison Control Center. Section V Fire Fighting Measures

Extinguishing Media:
✓ Water Spray
✓ Foam
✓ Carbon Dioxide
✓ Dry Chemical
✓ Other (Specify)

SPECIAL FIRE FIGHTING PROCEDURES: High heat on drums of this material will cause evaporation and expansion of solvents, causing the drum lid to fly off or possibly the drum to explode. Cool the drums before approaching fires involving this material. Fight fires from a safe distance. Self-contained breathing apparatus should be worn in enclosed areas to minimize breathing vapors, mists and decomposition products. Use water spray to cool drums. Use water to flush spills away from exposure to flame and heat. Avoid spreading burning material with water.

UNUSUAL FIRE AND/OR EXPLOSION HAZARDS: The vapor from this material is heavier than air and may travel considerable distances to ignition sources and flashback. This material is especially hazardous because it floats on water and flames will spread.

Section VI Accidental Release Measures

PROCEDURES TO BE FOLLOWED IN THE EVENT OF A SPILL: Stay up-wind and away from spill. Keep all sources of ignition and hot surfaces away from spill. If indoors, ventilate area of spill. Keep out of drains, sewers or waterways. Use sand or other inert material to dam and contain the spill. Don’t flush with water. Use absorbent pads. For large spill call response team and notify local, state agencies. Immediately notify the National Response Center (1-800-424-8802) in case the spill is in excess of an EPA reportable quantity.

WASTE DISPOSAL METHOD: Dispose of this product in accordance with local, county, state and federal regulations.

Section VII Precautions for Safe Handling and Use

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE: Keep containers tightly closed. Keep containers cool, dry and away from sources of ignition. Use and store this product with adequate ventilation. Store away from incompatible materials, avoid inhalation of vapors and physical contact with this product. Use good personal hygiene.

OTHER PRECAUTIONS FOR SAFE USE: Empty containers may have residue and may explode. Do not pressurize, cut, weld, braze, solder, drill, grind or expose such containers to heat, flame, or sources of ignition. Empty containers must be completely drained, properly sealed and properly disposed of or properly reconditioned. Dispose of in an environmentally safe manner in accordance with all governmental regulations.

Section VIII Exposure Controls / Personal Protection

SPECIFIED RESPIRATORY PROTECTION: When vapor concentration exceeds specified limits (Section 11) ANIOSH MSHA, approved respirator for organic vapors/mists should be used or supplied air equipment can be used.

VENTILATION REQUIRED: Local Exhaust Mechanical Special Specify:
PROTECTIVE GLOVES: The use of gloves impermeable to the specific material handled is advised to prevent skin contact and possible irritation. Neoprene is suggested.

EYE PROTECTION: Use goggles (NIOSH approved) for small quantities and a full face shield for larger quantities.

WORK/HYGENIC PRACTICES: Minimize contact with this material. Avoid breathing vapor or mist. Avoid prolonged or repeated contact with skin. Impervious clothing should be worn as needed. Remove and thoroughly clean contaminated clothing before reuse.

OTHER SPECIAL PRECAUTIONS OR PROTECTIVE EQUIPMENT: Do not smoke, drink, eat or take medication in the vicinity of this material. Cleanse skin thoroughly before smoking, drinking, eating or taking medication. Cleanse skin thoroughly after contact. Product is readily removed from skin by waterless hand cleaners or solvents (Acetone or esters, followed by washing with soap and water.)
