MSDS-059

	1. PRODUCT IDENTIFICATION				
1.1	Product Name:				
	TRADITIONAL POWDERS				
1.2	Chemical Name:				
	POLY ETHYLMETHACRYLATE POWDER				
1.3	Synonyms:				
	TRADITIONAL PINK POWDER, TRADITIONAL CLEAR POWDER, TRADITIONAL NATURAL POWDER, TRADITIONAL WHITE POWDER				
1.4	Trade Names: NP-100, NP-200, NP-300, NP-400				
1.5	Product Use:				
	PROFESSIONAL OR SUNDRY USE ONLY				
1.6	Manufacturer's Name: OPI PRODUCTS, INC.				
1.7	Manufacturer's Address:				
	13034 SATICOY STREET, NO. HOLLYWOOD, CA 91605 USA				
1.8	Emergency Phone:				
	CHEMTREC: +1 (703) 527-3887 / +1 (800) 424-9300				
1.9	Business Phone:				
	+1 (818) 759-2400 / +1 (800)-341-9999				
	2. HAZARD IDENTIFICATION				
2.1	Hazard Identification: This product is NOT classified as a HAZARDOUS SUBSTANCE or as DANGEROUS GOODS according the classification criteria of NOHSC:1088 (2004) and the ADG Code (Australia). Allergic contact dermatitis is possible with prolonged or repeated contact. The product is a fine powder, and may cause a slipping and falling hazard if spilled.				
2.2	Routes of Entry: Inhalation: YES Absorption: NO Ingestion: YES				
2.3	Effects of Exposure: EYES: Possible irritation from dust. SKIN: Irritation. Allergic contact dermatitis is possible with prolonged or repeated contact. INGESTION: No exposure effects are reported. INHALATION: Considered a nuisance dust. May cause irritation of the mouth, nose, throat, and lungs.				
2.4	Symptoms of Overexposure: Symptoms of skin overexposure may include redness, itching, and irritation of affected areas. Overexposure in eyes may cause redness, itching and watering. The product can cause allergic skin reactions (e.g., rashes, welts, dermatitis) upon prolonged or repeated exposure.				
2.5	Acute Health Effects:				
	Moderate irritation to eyes and skin near affected areas. Additionally, high concentrations of vapors can cause drowsiness, dizziness, headaches and nausea.				
2.6	Chronic Health Effects:				
	No long-term health effects are known.				
2.7	Target Organs:				
	Eyes, skin & respiratory system.				
NA =	Not Available: ND = Not Determined: NE = Not Established: NF = Not Found: C = Ceiling Limit: See Section 16 for Additional Definitions of Terms Used				

NA = Not Available; ND = Not Determined; NE = Not Established; NF = Not Found; C = Ceiling Limit; See Section 16 for Additional Definitions of Terms Used NOTE: all WHMIS required information is included. It is located in appropriate sections based on the ANSI Z400.1-2004 format.

FIRST AID MEASURES First Aid: INGESTION: If ingested, do not induce vomiting! If product has been swallowed, drink plenty of water or milk IMMEDIATELY. If the patient is vomiting, continue to offer water or milk. Never give water or milk to an unconscious person. Contact the nearest Poison Control Center or local emergency number. Provide an estimate of the time at which the material was ingested and the amount of the substance that was swallowed. If irritation occurs & product is on the skin, rinse thoroughly with lukewarm water, followed by a thorough washing of the SKIN: affected area with plenty of soap and water. Remove contaminated clothing and wash thoroughly before reuse. If irritation, redness or swelling persists, consult a physician immediately. If product gets in the eyes, flush with copious amounts of lukewarm water for at least 15 minutes. Open and close EYES: eyelid(s) to ensure thorough irrigation. If irritation persists seek immediate medical attention. INHALATION: Remove victim to fresh air at once. If breathing stops, perform artificial respiration. Seek immediate medical attention. Medical Conditions Aggravated by Exposure:

Pre-existing dermatitis, other skin conditions, and disorders of the target organs (eyes, skin, respiratory system). Preclude from exposure those individuals that are susceptible to dermatitis, asthma or bronchitis.

Upper Explosive Limit (UEL):

5. FIREFIGHTING MEASURES

NA

5.1 Flashpoint & Method:

264 °C (508 °F), TCC

5.2 Autoignition Temperature: NA

Flammability Limits:

5.3

5.4 Fire & Explosion Hazards:

Lower Explosive Limit (LEL):

Keep away from excessive heat, open flames, sparks, and other possible sources of ignition.

Extinguishing Methods

5.5

Carbon dioxide, dry chemical & water spray.

Keep containers cool until well after the fire is out. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply, or any natural waterway. Firefighters should wear full face, selfcontained breathing apparatus (MSHA/NIOSH approved or the equivalent) and impervious protective clothing.

6. ACCIDENTAL RELEASE MEASURES

5.1 Spill:

Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment.

For small spills (e.g., < 5 lbs) wear appropriate personal protective equipment (e.g., goggles, gloves). Maximize ventilation (open doors and windows) and secure all sources of ignition. Carefully sweep up spilled material and place into appropriate closed container(s) for disposal. Dispose of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clothing and wash thoroughly before reuse.

For spills ≥ 5 lbs, deny entry to all unprotected individuals. Contain spill with inert material (e.g., sand or earth). Carefully sweep up spilled material and place into appropriate closed container(s) for disposal. Remove contaminated clothing promptly and wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water.

7. HANDLING & STORAGE INFORMATION

7.1 Work & Hygiene Practices:

Avoid prolonged contact with this material. Limit inhalation of the vapors generated by this product. Use in a well-ventilated location (e.g., local exhaust ventilation, fans). Wash exposed skin thoroughly with plenty of soap & water after using this product. Do not eat, drink, or smoke while handling this product.

7.2 Storage & Handling

Use and store in a cool, dry, well-ventilated location (e.g., local exhaust ventilation, fans). Keep away from excessive heat, open flames, sparks, and other possible sources of ignition. Keep away from incompatible materials listed in Section 10. Do not store in damaged or unmarked containers or storage devices. Keep containers securely closed when not in use. Open slowly on a level, stable surface. Empty containers may contain residual amounts of this product; therefore, empty containers should be handled with care. Keep away from children at all times!

7.3 Special Precautions:

Local exhaust ventilation is recommended.

8. EXPOSURE CONTROLS & PERSONAL PROTECTION

8.1 Ventilation & Engineering Controls

Use with adequate ventilation (e.g., local exhaust ventilation, fans). Ensure appropriate decontamination equipment is available (e.g., sink, safety shower, eye-wash station).

8.2 Respiratory Protection

No special respiratory protection is required under typical circumstances of use or handling. In instances where vapors or sprays of this product are generated, and respiratory protection is needed, use only protection authorized by 29 CFR §1910.134, applicable U.S. State regulations, or the Canadian CAS Standard Z94.4-93 and applicable standards of Canadian Provinces, EC member States, or Australia

8.3 Eye Protection:

Avoid eye contact. None required under normal conditions of use. However, may cause irritation in some sensitive individuals. When handling large quantities (e.g., ≥ 1 gallon), safety glasses with side shields should be used.

8.4 Hand Protection

No apron required when handling small quantities.

When handling large quantities (e.g., \geq 1 gallon), eye wash stations and deluge showers should be available. Upon completion of work activities involving large quantities of this product, wash any exposed areas thoroughly with soap and water.

8.5 Body Protection

No apron required when handling small quantities.

When handling large quantities (e.g., ≥ 1 gallon), eye wash stations and deluge showers should be available. Upon completion of work activities involving large quantities of this product, wash any exposed areas thoroughly with soap and water.

15. REGULATORY INFORMATION - continued

15.8 67/548/EEC (European Union) Requirements:

The primary component of this product is not listed in Annex I of EU Directive 67/548/EEC.

16. OTHER INFORMATION

16.1 Other Information

Precisely follow directions and MSDS (available through your supplier) for use. **Avoid skin contact**. If redness or other signs of adverse reaction occur, discontinue use immediately. Use only in a well ventilated area. A ventilation system that expels vapors to the outdoors is recommended. **Keep out of reach of children.** In case of emergency, contact your physician or local Poison Control Center immediately. FOR PROFESSIONAL USE ONLY!

16.2 Terms & Definitions

Please see last page of this MSDS.

16.3 Disclaimer

This Material Safety Data Sheet is offered pursuant to OSHA's Hazard Communication Standard, 29 CFR §1910.1200. Other government regulations must be reviewed for applicability to this product. To the best of ShipMate's & OPI Products' knowledge, the information contained herein is reliable and accurate as of this date; however, accuracy, suitability or completeness are not guaranteed and no warranties of any type, either expressed or implied, are provided. The information contained herein relates only to the specific product(s). If this product(s) is combined with other materials, all component properties must be considered. Data may be changed from time to time. Be sure to consult the latest edition.
